B.A. in Finnish

Study Finnish @ UW

A B.A. in Finnish opens doors to a center of business, education and culture in Europe, as well as a gateway to the Baltics and Russia. Students build advanced linguistic skills through a three-year program in language and literature. They increase their knowledge of Finland, Scandinavia, and the Baltics through cultural surveys, specialized courses on topics ranging from the “Kalevala” to Finnish pop culture, and affordable study abroad opportunities that cover diverse fields of study. Prepared with knowledge from world leaders in welfare, business, and gender equity, graduates pursue careers in business and nonprofit work, law, academia, and STEM industries across the globe.

First Year Finnish 1 (FINN 101) is available only in the fall quarter. Because the core of the Finnish major is building advanced linguistic skills over the course of three years, students should sign up for this class as early as possible. If you have previous experience studying Finnish, schedule a placement test by emailing uwscand@uw.edu.

Admissions, Advising & Student Resources

Please see our Undergraduate Programs section for information about applying to the program, career paths, scholarships, and other student resources.

Each of our majors has an option to pursue departmental honors. Students who are interested should meet with the undergraduate adviser to learn more about the requirements.
