Support Baltic Studies

The Baltic Program Fund

We appeal to all individuals and organizations interested in helping to make the Program in Baltic Studies a stable and continuing resource for generations to come.

Beginning 1994, the Program in Baltic Studies was funded by a federal (Title VI) grant which supported foreign languages and area studies, and by temporary university funds. As of 2005, federal and state funds earmarked for the program have been greatly reduced or eliminated. With government funding for public education shrinking, generally, the program's growth and further development depends increasingly on the support of individuals who believe in the importance of a Baltic Studies program in North America.

The Program in Baltic Studies Endowment helps to ensure that the Baltic languages will continue to be taught at the University of Washington. The endowment is established in perpetuity because only the income it produces is used. In order to ensure that a faculty position will be connected to the Baltic Studies program, an Endowment goal of $3M has been set. This will ensure the permanence of the program and provide vital support for a full-time regular faculty position to lead and continue to develop it.

Contributions to this fund is a tax deductible donation in the United States as well as in Canada. But more importantly, your gift to the Baltic Program Endowment will give you the great satisfaction of knowing that you are supporting an educational opportunity that is significant to you, to your community, and to future generations.
